SCOPE AND CONTENT NOTE

INNOKENTII SERYSHEV PAPERS

This collection consists of the papers of Rev. Innokentii Seryshev, a Russian Orthodox priest active in the first half of the 20^{th} century in Siberia, Japan, China and Australia. Of particular interest is his hobby: the study of Esperanto, of which he was a devoted adherent. Some correspondence and publications are in that language (<u>Oriento</u>, <u>La Pacifiko</u>, and other works in the Speeches and Writings series), and there is a written work on its development in Russian and the USSR ("Esperanto v S.S.S.R.," Box 11, Folder 7).

The materials in the collection reflect mainly his involvement in émigré and Church affairs, mainly in China and Australia, and include correspondence with prominent émigré figures as well as materials for a biographical encyclopedia of prominent Russians that included a large number of émigrés. Also valuable are his multi-volume memoirs, "V zemnom plane moego vechnogo bytiia."

A significant part of the collection consists of periodicals edited and published by Seryshev, on both religious and secular themes, most of which are in mimeograph or similar format, and there is a large amount of writings on religious issues: sermons, apologetics, etc.

Detailed processing and preservation microfilming for these materials were made possible by a generous grant from the National Endowment for the Humanities and by matching funds from the Hoover Institution and Museum of Russian Culture. The grant also provides depositing a microfilm copy in the Hoover Institution Archives. The original materials and copyright to them (with some exceptions) are the property of the Museum of Russian Culture, San Francisco. A transfer table indicating corresponding box and reel numbers is appended to this register.

The Hoover Institution assumes all responsibility for notifying users that they must comply with the copyright law of the United States (Title 17 United States Code) and Hoover Rules for the Use and Reproduction of Archival Materials.
